

Release 19: changes and additions

Release 19 features the changes and additions outlined below. As a simap user, you will see the following amendments concerning **contractors only**:

- Changes to the catalogue of questions regarding **sustainable procurement**.

Instructions and overviews regarding the “collection of data on sustainable procurement” (see red arrow) are available under “online help” (from 04.01.2022).

The screenshot shows the online help interface. On the left is a navigation menu with categories like 'Online Help', 'Legal Basis of Public Procurement', 'Project Overview', and 'Award contract'. Under 'Award contract', the item 'Collection of data on sustainable procurement' is highlighted with a red box and a red arrow. The main content area shows the title 'Collection of data on sustainable procurement' with links for 'print page' and 'print all pages'. Below are three sub-sections: 'Requirement for collecting sustainability-relevant reference data', 'Sustainability form', and a project-specific form for 'Project : 102044 - Site preparation work'. The project form asks 'Do you want to fill in the sustainability form?' with 'Fill in now' and 'Fill in later' buttons.

Collection of this data **applies only to the following federal contracting authorities:**

- Bundesamt für Bauten und Logistik
- Bundesamt für Strassen
- armasuisse VBS
- Eidgenössische Technische Hochschule Zürich (ETHZ)
- Eidgenössische Technische Hochschule Lausanne (ETHL)
- Paul-Scherrer-Institut (PSI)
- Eidgenössische Forschungsanstalt für Wald, Schnee und Landschaft (WSL)
- Eidgenössische Materialprüfungs- und Forschungsanstalt (EMPA)
- Eidg. Anstalt für Wasserversorgung, Abwasserreinigung und Gewässerschutz (EAWAG)

Please note: sustainability forms are not available in English - you have the opportunity to provide your information in German. For French or Italian sustainability forms, please make a publication in the according language.

- Due to an [amendment in legislation \(article XIII\)](#), the lettering and descriptions for the statistical evaluation related to **direct award procedures** have been amended. The overview now looks as follows:

Public procurement

Contracts awarded without invitations to tender

DOC ID: 919779

Step 1
Step 2
Step 3
Step 4
Step 5
Step 6
Step 7
