simap.ch

Information about the introduction of Release 7 on simap.ch

The following changes have been made to the simap.ch platform. They will be activated on June 18, 2014.

– New form "Monitoring of sustainable procurement practices": Certain federal agencies will be using this new form to collect data on the sustainability of procurement practices.

– Online subscriptions on the simap platform: Contract award information has been added to the pool of available data. All types of publications (such as invitations to tender, contracts awarded, etc.) are now available for online subscribers.

– Expansion of simap SOAP interface: Data from simap.ch can be imported automatically through the SOAP interface, e.g. for publication in a cantonal gazette.

You will find a description of the changes in the user guidelines on simap.ch.
